CityScape Earns WBE & SBE Certifications

The Port Authority of NY & NJ certified CityScape Engineering & Surveying, P.C. as Woman Owned Business (WBE) and Small Business Enterprise (SBE)

East Hanover, NJ - February 16, 2011

CityScape Engineering and Surveying, PC (CityScape) is a full service civil engineering and land surveying firm. Located in East Hanover, NJ, the firm provides services for the urban developments as well as for the public sector. CityScape recently became certified by the Port Authority of NY and NJ as a Woman Owned Business (WBE) and a Small Business Enterprise (SBE), and is also pre-qualified by public agencies such as the NJ School Development Authority, and NJ Turnpike, among others.

CityScape is uniquely positioned to provide a varied array of services that can tackle anything from plans for a swimming pool for the single family home owner to large commercial / residential projects for national corporations, to municipal projects like the Reigelsville Toll Support Bridge renovation in Phillipsburg, NJ (photo below right).

Projects CityScape is currently working on range from the new Police Academy in Queens, New York (below) to a facility building at Picatinny Arsenal Base in New Jersey.

According to Jayne Warne, PE, President, "Receiving the WBE/SBE certification with PANYNJ allows CityScape to expand its portfolio of projects and its ability to team up with larger engineering firms. We are very excited to embrace this new challenge."

CityScape is an affiliate of Matrix New World Engineering, Inc. (Matrix) and shares the same upper management team. Matrix was formed in 1990 as a primarily environmental consulting firm serving a small base of clients. Today, Matrix is the largest woman-owned engineering and environmental services firm in the Northeast and provides environmental, geotechnical and civil engineering, oil spill and survey services. The company has expanded into Phoenix, AZ and has satellite offices in the Gulf of Mexico region.
